

Known Icing and Personal Weather Minimums

Known Icing and Known Icing Conditions, the associated Weather Briefings and Preflight Planning issues necessary to properly evaluate possible icing conditions along your route.

Directions: This will be an evening meeting starting at 7 P.M., at the Bismarck Aero Center, located on the west side of the Bismarck Airport, just Northwest of the terminal building. Refreshments will be served.

A message from the National FAASTeam Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
